Mission

The WOW (World Of Wellness International Limited) is a not-for-profit organisation.

It has been established to represent the health, wellbeing and peaceful interests of people everywhere. The WOW will also work to retain our health sovereignty by education, research, disease prevention, early treatment and public and government relations.

The WOW will advocate for Australians to offer autonomy of choice in healthcare and the delivery of medicines.

The WOW is dedicated to the reestablishment of human rights, including the right to full and informed consent and the individual's autonomy over medical procedures free of coercion.

"Our aim is to improve health by focusing on prevention and natural remedies. We promote evidence-based and individualised therapeutic outcomes, by combining lifestyle education and integrative treatments".

-Professor Ian Brighthope

About

World of Wellness started in 2022 after Australians endured two years of lockdowns.

We now have a committee of dedicated people who are networking in the health sector. We are passionate about health reform, accountability and raising awareness.

Our team includes health practitioners and innovative leaders from diverse backgrounds.

Meetings

We have a regular public meeting every Sunday.

Time

3pm - 5.30pm

Place

St Colman's Parish, Balaclava

Address

291 Carlisle Street, Balaclava

Parking

Behind the church, entrance is via side street

\$5 entry fee

Refreshments available

Objectives

- ✓ Build a community that refocuses on healthy lifestyles, independent medical advice and natural therapies.
- ✓ Act as a hub for resources such as the Australian Medical Professional Society (AMPS), the Australian College of Nutritional and Environmental Medicine (ACNEM) and the World Council for Health (WCH).
- ✓ Make available treatment protocols for both long covid and adverse reactions to the mRNA injections.
- ✓ Train nurses to administer IV vitamin C treatments.
- ✓ Offer Doctors CME approved education in natural therapies.
- ✓ Support clinical trials to determine the best practices for treating covid.
- ✓ Advocate for reform of Australia's health system.

Offer

Subscribe to our private membership network for a small fee, and stay up to date with the latest news and health treatments.

Join one of our working groups and gain confidence, knowledge about health and wellness and a strong sense of community.

Promote your own health practice on our growing directory of services.
