

Hello,

Im contacting you as you may want to contribute to the Vaccines Deaths and Injuries display that i do. Here is a little write up i do for those that would like to add their story. It helps in such a huge way. As each one is added, the awareness will grow along with the display.

Ive personally witnessed many many people open their eyes a bit more each time it is set up. It is currently being organised to be dispersed to set up in every Australian state. I am just working out the logistics now.

my contact for you...

forestofthefallen@protonmail.com

Or of course you are welcome to call or text me too 0432646066 and please contact anytime with any questions you may have.

It is best to keep it at a length that will fit well on an A4 page for display purposes but you can share as much or as little as you wish. You can use words that you cannot on social media like 'vaccine' or vaccine company names and you will not be censored.

If you are suffering cognitively we can set up a time to video call via Instagram or Zoom

Very welcome to remain anonymous if preferred! All optional. Whichever is most comfortable for you.

Name- Age- Location -

Vaccine/s brand and date administered (Batch number if available) -

Diagnosis if any-

Medical negligence if any-

Anything else you would like others to know. Photo/s helps people to engage as its visual.

Also JAB_INJURIES_AUSTRALIA on Instagram is a place you can go to read others stories and gain wonderful support including advice and to meet others that are experiencing the same. You can also submit your story to them, just make contact.

Many do a lot on social media- I don't. That is the difference in what we do. What we do is purely for public display in real-time and protects from censorship and creates real conversation. .Most of the stories on JIA are included in the display.

Please note, that people do film it. This i cannot control. But ...every share helps spread the truth.

Thankyou . It's slowly raising traction and people are starting to connect the dots. If you have a friend or know of others that would like to share, please share this with them too.

every moment we are awakening to this and healing is happening through recognition, engagement and support. i hope to hear back from you.

Blessings Selki
